In Subig Bay.

Shot From the Krupp Cannon of the Gallant Work Done by the Landing Party-One American Wounded.

WASHINGTON, Sept \$25 .- Acting Sec. etary Allen of the navy department received a cable from Rear Admiral Watgagement at Subig bay. It was dated the 24th, at Manila, and

"Mandora discovered heavy gun sent Charleston, Monterey, Concord and Zatiro with detachment of marines and sailors from Baltimore to capture and destroy. Attacked insurgent position 23d; after bombardment landing party carried entrenchments, disposessed enemy and destroyed one 16 centimeter Krupp gun. Casualties: William Shepherd, apprentice, second class, Charleston, seriously wounded: Charles Haffke, coal passer, Concord, heat pros-

ration.

Insurgent fire heavy, but poorly
Full simed. Enemy's loss unknown. Full report mailed."

The important feature of the engage ment is the fact which is disclosed that the insurgents have been able to obtain Krupp guns. It was known at the time of the outbreak of the insurgents against the Americans that the artillery of the insurgents consisted of a few ob solete guns captured from the Span

Acting Secretary Allen said that it was evident that the payy at Manila did not intend to allow any fort to be erected by the insurgents which can be reached by the ships, and he was convinced that the squadron under Admiral Watson would be able to keep the nores guarded and repeat the lesson of Saturday it the insurgents are found to

be operating on the coast.

MANILA, Sept. 25.—Following are ome of the details of the bombardment in Subig bay: The Montercy began the advance upon the town, which was about three miles east of the monitor's anchorage. The Charleston, Concord and Zafiro fol-

lowed. The Monterey opened fire with her secondary and main batteries, the Charleston and Concord joining immediately. The insurgent camen answered, the arst shot passing close to the Monterey's smokestack. The gun was

fired twice only. The American bombarding became general. Later the Monterey advanced to a range of 600 yards, using her main battery. Two hundred and fifty men were landed about 800 yards east of the cannon under a severe shore Mauser fire. The men from the Charleston were the first to reach the beach, but the Concord's men were first at the gun. The cannon was found to be a 16centimeter Krupp gun, presumably ob-

tained from the Spaniards. Meanwhile the warships continued to shell the shelving beach on the east and west side to silence the insurgent fire upon the sailors from the trenches skirting the beach.

Gunner Olsen exploded 50 rounds of gun cotton in three discharges, in the cannon, which had suffered from the fire of the warships. The Americans then returned to the boats, the firing inland being kept up

cord's men were the last to leave the The Americans had one wounded Cadet Brinser, with the Concord's launch armed with a Gatling, did excellent work on the left of the landing party. Captain Myers of the captured a muzzle-loading field piece. Lieutenant McDonald was in command

The numbers of the Filipinos here could not be ascertained and no dead were seen. The Monterey fired for four hours-21 shots from her 10-inch guns and 17 from her 2-inch guns.

of the landing party, and the movement

was splendidly executed and controlled -

shells, took fire at several points. DEATHS FROM DISEASE.

The town, which was riddled with

Ctis Says Many Fitipinos Are Tired of It Encouraged by Anti-Imperialists at Home.

MANUA, Sept. 25,-General Otis, in reply to questions, said in part: "Things are going along in a very satisfactory manner. Our own forces are in good condition. We have plenty of commissary sapalies here or on the way. We also have all the transportation facili-tics necessary either it reor the way. When the weether conditions permit we shall be ready to make an active

ampalien. The insurgents are laving a bard one holding their forces together. They save no commissariat and no voluntary

a mort from their own people. with the exception of a few rob bers and adventurers these people grow-sieber and more disgusted with indeendence every day they have it. Even the leaters of the insurgents are trying to gee away. Several officers have come to Manila: others have sent their tamilies here. Paterno (Petro Paterno, the former president of the Filipino cabiner) has his entire family, numbering about 50 persons, here. Others have asked the same privilege.

"Independence was a craze with these people. They did not understand what it meant, but their worship of the idea amounted almost to fanaticism. Now that they really know what independence means it is the best object lesson they ever had, and it will not be necessary to continue it much longer to forever settle the question.' He said it was almost impossible to

overestimate the encouragement, support and assistance that the actions and talk of the anti-expansionists in the United States had given the insurgents. These men, he said, put into the heads of the rebels the idea that congress would do something adverse to the contanuance of the war. He (Otis) was kept will informed as to what was going on at the insurgent headquarters. He knew that the insurgent leaders had been exhorting the Filipinos to hold out until September on the pleathat a special session of the American congress had been called for the purpose of granting independence to the Filipinos. When that failed the plea was changed and it was said that this action would be taken when congress

met in regular session. This idea of congressional interference with General Otis' actions or the president's plans is so widespread here that it has somewhat affected even the influential Filipinos in Manila.

"When congress meets," says General Otis, "snould the president recommend non-action in the Philippine affairs, or should congress refrain from interfering, it would be a hard blow to the rebel leaders. If congress passes a resolution that there shall be no legislation concerning the Philippines until the insurrection is ended by absolute and unconditional surrender, that would the deathblow to the insurgent cause.

The settlement everywhere depends upon the condition of affairs in Luzon. All the southern islands are avaiting the result of the fight here and will
